PROFILE

IT professional with 8+ years of experience spanning IT business analysis, network and telecom engineering, and software development. Skilled at translating business requirements into technical solutions, with hands-on expertise in REST APIs, Spring Boot, Python, and enterprise network infrastructure. Proven ability to work across the full technology stack — from backend development and system administration to network operations and stakeholder analysis.

PROFESSIONAL EXPERIENCE

IT Business Analyst | *Dashen Bank S.C.*

Jan 2025 – Present

- Led requirements engineering for payment integration and automation systems — gathering business and product requirements from stakeholders and translating them into use cases, user stories, and functional/non-functional specifications using Agile and Waterfall methodologies.
- Managed requirements throughout the SDLC, from elicitation through UAT and end-to-end testing, coordinating with cross-functional teams across 10+ projects and reducing post-deployment defects by 30%.
- Built and maintained product backlogs and user stories in Jira, assigning and tracking delivery across a team of developers, which improved sprint delivery velocity.
- Acted as the primary liaison between business stakeholders and technical teams, aligning priorities across departments and increasing on-time feature delivery by 15%.
- Designed and developed role-based automation-system backend REST API endpoints in Spring Boot, and built React.js frontend features integrated via Axios, which reduced manual processing by 40%.

Network & Telecom Engineer | *insa.gov.et*

Aug 2019 – Jan 2025

- Designed, configured, and maintained LAN switching infrastructure — including VLAN segmentation and routing — across multiple switches, improving network stability and reducing downtime incidents by 25%.
- Implemented access control and VPN solutions to secure network access, enabling secure remote connectivity for 200+ users and cutting unauthorized access attempts by 60%.
- Extended IT infrastructure design to additional sites, aligning network architecture with organizational security and scalability requirements.
- Applied Python for network automation and operational tooling, which reduced manual configuration time by 50%.
- Supported end users and network security operations, sustaining 99% network uptime across 100+ devices.

System Software Developer | *insa.gov.et*

Feb 2019 – Jul 2019

- Owned the full lifecycle for internal system solutions — including requirements collection, analysis, development, testing, and deployment.

Trainee | *insa.gov.et*

Feb 2018 – Feb 2019

Full-stack Developer (Contract) | *Aelaf & LT Software Engineering PLC*

Nov 2017 – Aug 2018

- Designed and developed a SOAP-based web service using JAX-WS and WSDL, enabling integration with external systems.
- Implemented the persistence layer using Hibernate with MySQL, supporting reliable data access with 95% query accuracy.
- Developed an enterprise-level, data-rich Flex application using ActionScript and MXML.

EDUCATION

BSc, Information Technology (Engineering)

Mekelle Institute of Technology, Mekelle University | Oct 2012 – Jul 2017 | Grade: 3.75/4.0

Key coursework: Data Structures & Algorithms, Software Engineering, OOP System Design, Web Services, Network Security, Databases (Oracle PL/SQL), Data Warehousing & Mining.

SKILLS

Development: REST APIs, Spring Boot, React.js, Axios, Tailwind CSS, Java, Python, SOAP, JAX-WS, WSDL, Hibernate, Flex/ActionScript/MXML, Git, VS Code

Business Analysis: Requirements Engineering, Requirements Management, User Story Development, Jira, SDLC, Business Modeling, Agile Methodologies

Databases & Identity: Oracle, MySQL, PostgreSQL, SQL, PL/SQL, Keycloak

Networking: LAN Switching, VLAN, Routing, VPN, Access Control, IT Infrastructure Design, Network Architecture, Network Security, BGP

CERTIFICATIONS

Business Analysis

- Agile Business Analysis — LinkedIn (Dec 2025)
- Atlassian Agile Project Management Professional Certificate — Atlassian/LinkedIn (Oct 2024 / Oct 2025)
- Learning Jira Software — LinkedIn (Oct 2024)

Development

- Spring Boot and React: Build Scalable and Dynamic Web Apps — LinkedIn (Sep 2026)
- Creating Spring Boot Microservices — LinkedIn (Oct 2025)
- Building APIs with Swagger and the OpenAPI Specification — LinkedIn (Oct 2025)
- Build REST APIs with FastAPI — LinkedIn (Dec 2025)
- Programming with Python Professional Certificate — OpenEDG Python Institute (Oct 2024)

Networking

- Cisco Certified Network Associate (CCNA) Certification — Cybrary (Jun 2023)
- CompTIA Network+ (N10-008) Cert Prep — LinkedIn (Oct 2024)
- Cisco CCNP ENCOR v1.1 (350-401) Exam Prep — LinkedIn (Oct 2024)
- BGP Essential Training — LinkedIn (Oct 2024)

IT & Security

- Certified in Cybersecurity (CC) — ISC2 (Jun 2023)
- Career Essentials in Cybersecurity — Microsoft/LinkedIn (Oct 2024)
- Putting ITIL® Into Practice: Applying ITIL 4 Foundation Concepts — LinkedIn (Oct 2024)
